Made in: China

**USER INSTRUCTIONS**

- 1) Open the bait door: Push the bait compartment by pressing it in and pulling up.  
**Tips: Do Not place the bait inside the tunnel.**
- 2) Set the bait: Spread the bait on the compartment with the open holes facing the inside of the trap. Slide compartment back into place.
- 3) Set the trap: open the spring door at the other end of the trap by simply pressing it down. The gate will automatically stay open. The gate shuts when the weight of the mouse triggers the fulcrum. The mouse will be secured in the trap unharmed.
- 4) Release the mouse: to release, slide open the compartment and allow the mouse to run free.

**Be sure to disinfect your hands after use!**

**WASTE MANAGEMENT****Protect our environment!**

Dispose of the materials used for packaging separately in the waste. Put cardboard and paper in the paper and foil in the plastic selective waste bin.
